

Melvin Schoech is Manager of Research and Development (R&D) for CenterPoint Energy's (CNP's) Electric Operations. Melvin has 34 years of experience with CNP and its' predecessor Companies, with that time spent working in, leading and managing multiple areas of distribution; overhead and underground engineering, planning, reliability, reliability reporting and operations, to name a few. Besides Melvin's R&D responsibilities, he is also CNP's EPRI (Electric Power Research Institute) Manager of Electric Technology Transfer (METT), responsible for the overall CNP EPRI R&D engagement. Melvin also has responsibility for CNP's Emergency Operating Plan (EOP) distribution damage assessment efforts. Melvin is a graduate of Texas A&I University (now Texas A&M – Kingsville) with a Bachelor of Science in Electrical Engineering and is a Registered Professional Engineer in Texas.
